#### 1 Week Till Votes are Counted, Trump on Auto-Pilot in Reliably Red Kansas; GOP Moran Coasts to US Senate Finish Line:

In 3 SurveyUSA tracking polls conducted for KSN-TV in Wichita, Republican Donald Trump led by 12 points on 09/12/16, led by 11 points today, 10/31/16. 30% of the interviews for this survey were completed before the FBI threw the election into chaos 10/28/16. 70% of the interviews for this survey were completed after the FBI announcement. The pendulum may swing yet further before votes are counted, but in this freeze-frame of research results: Trump led by 9 points before the FBI announcement. Trump led by 12 points after the FBI announcement.

Clinton resentment has increased. The percentage of Trump supporters who are voting "against Clinton" has gone from 38% on 09/12/16 to 47% on 10/17/16 to 50% today. At the same time, it is important to note that among voters who have already returned a ballot, in Kansas as elsewhere, Clinton is outperforming Trump. Specifically, Clinton leads Trump 50% to 42% among early voters. This may be a reflection of Clinton's more sophisticated get-out-the-vote operation, or it could be evidence that Trump voters are fast to talk-the-talk but not so fast to walk-the-walk. Trump leads Clinton by 15 points among voters who have not yet filled out a ballot but who promise to do so before polls close.

In the contest for United States Senator from Kansas, incumbent Republican Jerry Moran is well positioned at this hour for a second full term, 24 points ahead of Democratic challenger Patrick Wiesner. 2 weeks ago, Moran led Wiesner 56% to 31%, today, 55% to 31%. Libertarian Robert Garrard is at 6% today, up 1 point from 2 weeks ago. In rural Kansas, Moran leads by 43 points. Among seniors, Moran leads by 36 points.

When voters turn their attention to the Kansas state legislature, 38% say it would be best if Kansas elected more conservatives, 34% say it would be best if Kansas elected more liberals.

When voters are asked whether they will vote to retain the 5 state Supreme Court justices who are on the November ballot, 20% say they will vote to retain all of the justices; 15% say they will vote to retain one justice; the rest of voters will pick and choose.

Statewide Favorability Ratings :

\* Democratic President Barack Obama is viewed extremely favorably by 19% of KS voters, extremely unfavorably by 41%.

- \* Trump is viewed extremely favorably by 13% of KS voters, extremely unfavorably by 39%
- \* Clinton is viewed extremely favorably by 10% of KS voters, extremely unfavorably by 53%.
- \* Republican Governor Sam Brownback is viewed extremely favorably by 5% of KS voters, extremely unfavorably by 52%.
- \* Republican Senator Pat Roberts is viewed extremely favorably by 9% of KS voters, extremely unfavorably by 17%.
- \* Moran is viewed extremely favorably by 15% of KS voters, extremely unfavorably by 9%.

Context and Methodology :

SurveyUSA interviewed 800 state of Kansas adults 10/26/16 through 10/30/16. 30% of the interviews for this survey were completed prior to the FBI announcement 10/28/16 that additional Clinton-related emails of possible consequence had been identified on a device not previously known to the FBI. Of the adults, 693 were registered to vote. Of the registered, 624 were determined by SurveyUSA to have already returned a ballot or to be likely to do so before polls close on 11/08/16. 2% of voters interviewed for this survey said they almost always vote in Presidential elections, but would not vote in 2016 because they did not like any of the candidates on the ballot. An offsetting 4% of voters said they almost never vote in Presidential elections but would vote in 2016 because they were drawn to one of this year's candidates. This research was conducted using blended sample, mixed mode. Respondents reachable on their home telephones (60% of likely voters) were interviewed on their home telephones in the recorded voice of a professional announcer. Respondents not reachable on a home telephone (40% of likely voters) were shown a questionnaire on the display of their smartphone, tablet or other electronic device. Kansas has 6 electoral votes in 2016. In 2012, Mitt Romney carried the state by 22 points as Obama won a 2nd term. In 2008, John McCain carried the state by 15 points as Obama won his 1st term. In 2004, George W Bush carried KS by 25 points over John Kerry on Bush's way to a 2nd term. In 2000, Bush carried KS by 21 points. Early voting began 10/19/16.

Statement of Methodology: SurveyUSA is an independent, non-partisan, apolitical research company that conducts opinion surveys for media, academic institutions, commercial clients, non-profits, governments, agencies and elected officials. SurveyUSA opinion research is conducted using a methodology optimized for each particular project. In some cases, this means data is collected 100% by tlephone, in some cases, 100% online, and in other cases a blend of the two. For those projects that are conducted "inixed-mode" (or "multi-mode"): Respondents who have a home (Inahousehold using a methodology phone, some transversing machines. For surveys using random-digit-dial (RDD) to call landline phones, sample is purchased from Asitotie of Washington DC. Respondents who do not use a home telephone are interviewed on an electronic device, which means, for other projects, that SurveyUSA displays the question suisually on the respondent's cell phone, and means, for other projects, that SurveyUSA displays the question suisually on the respondent's works on the anometode to not use a home telephone are interviewed on an electronic device, which means, for some projects, that SurveyUSA displays the questions visually on the respondent's works to all phone, and means, for other projects, that SurveyUSA displays the question suisually on the respondent's works on the percentage who do not use a home telephone is purchased from SSI, responses are minimally weighted to the known demographics of the voter file, which include gender and age but, typically, not race. Target (cell) weighting is used. On questionnaires that as about political party identification, SurveyUSA may or may not weight respondents. Each individual SurveyUSA may or may not aveight do not are adduted to prevent order bias, recency and latency effects. On some studies, cartain populations are outer sampled, so that the number of unweighted respondents. SurveyUSA describes the filterion, surveyUSA describes the filterion with a parecins and answer ing particular s
