Geography: NC 27th State Senate District Data Collected: 10/20/2018 - 10/24/2018

Release Date: 10/26/2018

Percentages

About: SurveyUSA interviewed 400 registered voters from North Carolina's 27th State Senate District 10/20/18 through 10/24/18. This research was conducted using blended sample, mixed mode. Respondents reachable on a home telephone were interviewed on their home telephones in the recorded voice of a professional announcer, using Registration-list Based Sample (RBS) from Aristotle of Washington, DC. Respondents not reachable on a home telephone were shown a questionnaire on the display of their smartphone, tablet or other electronic device.

Statement of Methodology: SurveyUSA is an independent, non-partisan, apolitical research company that conducts opinion surveys for media, academic institutions, commercial clients, non-profils, governments, agencies, and elected officials. SurveyUSA opinion research is conducted using a methodology optimized for each particular project. In some cases, this means data is collected 100% by telephone; in some cases, 100% online; and in other cases, a blend of the two. For those projects that are conducted "mixed-mode" (or "multi-mode"): Respondents who have a home (landline) telephone are interviewed by phone, some projects, that call-center employees hand-dial cell phones and interview respondents verbally on the respondent's cell phone, and means, for other projects, that call-center employees hand-dial cell phones and interview respondents verbally on the respondent's cell phone, and means, for other projects, that SurveyUSA displays the questions visually on the respondent's phone, tablet, or other device, which means, for some projects, that call-center employees hand-dial cell phones and interview respondents verbally on the respondent's cell phone, and means, for other projects, that SurveyUSA displays the questions visually on the respondent's phone, tablet, or other device, and crosstabs by this distinction. Responses are minimally weighted to U.S. Census or voer file targets for gender, age and race. Target (cell) weighting is used. On questionnaires that ask abut politication, SurveyUSA may or may not weight to Parly ID, depending on client preference. Where necessary, questions are over-sampled, so that the number of unweighted respondents. Each individual SurveyUSA release contains the date(s) on which interviews are conducted in English. Where respondents werbus are filtered, such as adults, filtered to registered voters, in turn differentiates between respondents who have a leady voted and those who are likely to voted. SurveyUSA release contains the date(s) on which interviews are conducted in Engl
