California: Fiorina and Boxer Still in Tight Fight; Whitman Narrowly Atop Brown; Some Traction for Those Opposed to Legal Weed: Incumbent Democrat Barbara Boxer remains locked in a tight fight with Republican challenger Carly Fiorina, according to this latest SurveyUSA poll conducted exclusively for KABC-TV Los Angeles, KPIX-TV San Francisco, KGTV-TV San Diego, and KFSN-TV Fresno. 3 identical SurveyUSA tracking polls have shown the contest within the theoretical margin of sampling error, though, in all 3 cases, the Republican has been nominally ahead, confounding many observers and, for now, preserving the possibility of a take-away. Today, it's Fiorina 48%, Boxer 46%. There is movement, or perhaps statistical noise, among Hispanic voters. In the contest for **Governor** of California, it's Republican Meg Whitman 47%, Democrat Jerry Brown 40% today. Compared to an identical SurveyUSA poll 3 weeks ago, Whitman is up 3, Brown is down 3. But, compared to a SurveyUSA poll 7 weeks ago: no change. Among men, the race has been flat since polling began in July, with Whitman at 50% in each poll, and Brown at 35% to 37%. Among women, more volatility, with Brown 13 points atop Whitman 3 weeks ago, but tied with the former eBay CEO both 7 weeks ago and today. Opposition to **Proposition 19**, which would legalize marijuana and allow for its regulation and taxation, has grown. Two previous SurveyUSA polls both showed the measure passing by 10 points; today: 47% vote Yes to legalize, 43% vote No. Women, older voters, minorities, and Central Valley voters have all moved toward "No." Support remains above 50% among men, younger voters, whites, Democrats, liberals and moderates, and in the Bay Area. San Francisco Mayor Gavin Newsom, a Democrat, remains nominally ahead in the contest for **Lieutenant Governor**, where incumbent Republican Republican Abel Maldonado may have lost a couple of points compared to 3 weeks ago. Today it's Newsom 44% to Maldonado 39%. There is movement among men.

Filtering: SurveyUSA interviewed 1,000 California adults 08/31/10 through 09/01/10. Of them, 844 were registered to vote. Of the registered voters, 569 were determined by SurveyUSA to be likely to vote in the 11/02/10 general election, 2 months from today. Early voting begins in just over 1 month, on 10/04/10.

Statement of Methodology: About the Poll: This poll was conducted by telephone in the voice of a professional announcer. Respondent households were selected at random, using Random Digit Dialed (RDD) sample provided by Survey Sampling, of Fairfield CT. All respondents heard the questions asked identically. The pollster's report includes the geography that was surveyed; the date(s) interviews were conducted, the number of respondents who answered each question and the theoretical margin of sampling error for each question. Where necessary, respondents were weighted using the most recent US Census estimates for age, gender, ethnic origin and region, to align the sample to the population. In theory, one can say with 95% certainty that the results would not vary by more than the stated margin of sampling error, in one direction or the other, had the entire universe of respondents with home telephones been interviewed with complete accuracy. There are other possible sources of error in all surveys that may be more serious than sampling error. These include: the difficulty of interviewing respondents who do not have a home telephone; the refusal by some with home telephones to be interviewed; the order in which questions are asked; the wording of questions; the way and extent to which data are weighted; and the manner in which specialized populations, such as likely voters, are determined. It is difficult to quantify the errors that may result from these and other factors. Research methodology, questionnaire design and fieldwork for this survey were completed by SurveyUSA of Clifton, NJ. This statement conforms to the principles of disclosure of the National Council on Public Polls.
