Geography: Ohio
Data Collected: 09/12/2008 - 09/14/2008
Release Date: 09/15/2008
Percentaes

McCain, 7 Weeks Out, Positioned to Hold Ohio's 20 Electoral Votes for GOP: In an election for President of the United States in Ohio today, 09/15/08, Republican John McCain defeats Barack Obama by 4 points, according to this SurveyUSA poll conducted exclusively for WCMH-TV Columbus, WCPO-TV Cincinnati, WKYC-TV Cleveland, and WDIO-TV Dayton. Today, it's McCain 49%, Obama 45%. McCain leads 5:4 in Columbus, Cincinnati, Dayton, and Toledo. Obama leads 5:4 in greater Cleveland. McCain leads by 16 points among whites; Obama leads by 82 points among blacks.6 in 10 voters say the president should focus on the economy ahead of all other issues, and among that group, Obama leads 5:4. But the smaller group of voters who say terrorism is most important backs McCain 32:1. 3 times as many Democrats crossover to vote Republican as Republicans who crossover to vote Democrat. Among men, McCain leads by 13 points; among women, Obama leads by 4 -- a 17 point gender gap. Among voters who are younger than Barack Obama, Obama and McCain are tied. Among voters older than John McCain and those who are in-between the two candidates' ages, McCain leads by 10. McCain leads 5:4 among those who earn more than \$50,000 a year. Obama leads 4:3 among those who earn less than \$50,000 a year.

Filtering: SurveyUSA interviewed 900 Ohio adults 09/12/08 through 09/14/08. Of the adults, 832 were registered to vote. Of the registered voters, 692 were determined by SurveyUSA to be likely voters in the 11/04/08 general election. Like other research firms polling in Ohio, SurveyUSA did not mention Bob Barr or Ralph Nader by name in this questionnaire. Barr supporters would have been able to say they supported "another candidate" when asked to choose between McCain and Obama. If Barr's support is understated here, McCain's advantage is overstated. Interviews conducted after federal bailout of Fannie Mae, but before bankruptcy of Lehman Brothers. Interviews conducted after most, but not all, of ABC News' interview with Sarah Palin had been broadcast. Ohio has 20 Electoral College votes. George W. Bush carried Ohio by 2 points in 2004 and by 4 points in 2000.

1 If the election for President were today, would you vote for ... (choices rotated) Republican John McCain? Or, Democrat Barack Obama?

** Too few respondents of this type were interviewed for this data to be meaningful.

: WCMH-TV Columbus, WCPO-TV Cincinnati, WHIO-TV Dayton, WKYC-TV Cleveland

Statement of Methodology: About the Poll: This poll was conducted by telephone in the voice of a professional announcer. Respondent households were selected at random, using Random Digit Dialed (RDD) sample provided by Survey Sampling, of Fairfield CT. All respondents heard the questions asked identically. The pollster's report includes the geography that was surveyed; the date(s) interviews were conducted, the number of respondents who answered each question and the theoretical margin of sampling error for each question. Where necessary, respondents were weighted using the most recent US Census estimates for age, gender, ethnic origin and region, to align the sample to the population. In theory, one can say with 95% certainty that the results would not vary by more than the stated margin of sampling error, in one direction or the other, had the entire universe of respondents with home telephones been interviewed with complete accuracy. There are other possible sources of error in all surveys that may be more serious than sampling error. These include: the difficulty of interviewing respondents who do not have a home telephone; the refusal by some with home telephones to be interviewed; the order in which questions are asked; the wording of questions; the way and extent to which data are weighted; and the manner in which specialized populations, such as likely voters, are determined. It is difficult to quantify the errors that may result from these and other factors. Research methodology, questionnaire design and fieldwork for this survey were completed by SurveyUSA of Clifton, NJ. This statement conforms to the principles of disclosure of the National Council on Public Polls.
