Top 3 CA Primary Contests Not Close At This Hour --- Democrats Harris, Sanchez Likely to Advance to Runoff In Fight for Boxer's Senate Seat; Clinton Now 3:2 Atop Sanders; Cruz and Kasich No Longer Competitive, Though Congressional-District Delegate-Math Does Matter to Trump:

5 weeks till votes are counted in the 06/07/16 California primary, a majority of Republicans are resigned to vote for unpopular Donald Trump, a majority of Democrats are resigned to vote for unpopular Hillary Clinton, and 2 Democrats are poised to advance to the 11/08/16 U.S. Senate general election, which gives Republicans little chance to pick up Barbara Boxer's seat, according to a SurveyUSA poll conducted for KABC-TV in San Francisco, KGTV-TV in San Diego and KFSN-TV in Fresno.

Today, it's Trump 54%, Ted Cruz 20%, John Kasich 16%. One month ago, at the height of what some saw as Trump's inevitable self-destruction, a Los Angeles Times Poll found Trump just 1 point ahead of Cruz. Since then, polls have shown Trump's lead expanding to 7 points, then 8, then 18, then 27 points and now, today 05/02/16, 34 points. Whatever chance Cruz or Kasich may once have had to cramp Trump is gone. The only suspense that remains is whether Trump will collect all 172 of the Golden State's Republican National Convention delegates, which Trump would do if he wins each of California's 53 U.S. Congressional Districts. Each convention delegate is precious at this hour, as Trump tries to secure a 1st-ballot nomination and avoid the chaos that would come with a Cleveland floor-fight. Should Cruz and Kasich supporters see the California primary outcome as a foregone conclusion, and fail to turn out, Trump may succeed at capturing all 172. Or, if confident Trump backers sense they have the contest in hand and fail to turn out on 06/07/16, Trump and his delegate man Paul Manafort may allow the deal to go unsealed.

Today, it's Clinton 57%, Bernie Sanders 38%. No recent poll has shown Clinton with this large of a lead in California, but this is the first California poll to be conducted after Sanders laid off 225 paid campaign workers and after 4 losses on 04/26/16, the day before interviewing began for this study. Clinton's 1st-ballot nomination is much more secure than is Trump's, and when the East Coast wakes up on Wednesday 06/08/16 to see how much Sanders lost by in California, Clinton will have just 46 days to turn Bernie backers from "November-stay-at-homes" into enthusiastic Clinton supporters before Democrats gather in Philadelphia.

Of significance:

\* 51% of registered voters and 88% of "Strong Democrats" have an "extremely negative" view of Trump. 14% of registered voters and 45% of "Strong Republicans" have an "extremely positive" view of Trump

\* 28% of registered voters and 69% of "Strong Republicans" have an "extremely negative" view of Clinton. 16% of registered voters and 51% of "Strong Democrats" have an "extremely positive" view of Clinton.

\* By contrast, just 9% of registered voters have an "extremely negative" view of Kasich; 28% of registered voters have an "extremely negative" view of Cruz.

In the open, non-partisan, Top-2 primary for United States Senator, Republicans Tom Del Beccaro, Ron Unz and Duf Sundheim split conservative voters, paving the way for Democrats Kamala Harris and Loretta Sanchez to finish 1 and 2, and advance to an 11/08/16 runoff. Harris gets 29% today, Sanchez 18%. Harris gets 32% of the white vote, 58% of the black vote, 19% of the Latino vote and 29% of the Asian vote. Sanchez gets 11% of the black vote, 36% of the black vote, 36% of the Latino vote and 9% of the Asian vote.

Del Beccaro at 10%, Unz at 8% or Sundheim at 7% could overtake Sanchez if Latinos vote in smaller numbers than here shown. A best-case scenario for the 3 Republican Senate candidates had been that the outcome of the Democratic presidential primary was a foregone conclusion (suppressing Democratic turnout statewide), but that the Republican presidential primary would be white hot (boosting Republican turnout statewide). But that seems unlikely, even with Cruz picking Californian Carly Fiorina to be his running mate and even with Kasich continuing to be the least polarizing option.

Harris' support is older, which in a primary often translates to be "more reliable." Sanchez' support is younger. Harris runs 1st in all 4 regions of the state; she leads Sanchez and Del Beccaro by 35 points in the Bay Area, leads Sanchez by 9 points in the Central Valley, leads Sanchez by 3 points in greater Los Angeles, and leads Sanchez by a nominal 1 point in the Inland Empire. Among very conservative voters, Del Beccaro leads with 21%, followed by Sundheim at 17% and Unz at 14%. Among very liberal voters, Harris leads with 57% to Sanchez' 24%. Harris runs ever-so-slightly stronger among women than men, and Unz's support is twice as strong among men as women, but otherwise, there are no gender gaps to note.

In hypothetical head-to-head match-ups today for the 11/08/16 general election for President:

- \* Clinton defeats Donald Trump 56% to 34%.
- \* Clinton defeats Cruz 57% to 29%.
- \* Clinton defeats Kasich 53% to 34%.

Statement of Methodology: SurveyUSA is an independent, non-partisan, apolitical research company that conducts opinion surveys for media, academic institutions, commercial clients, non-profils, governments, agencies and elected officials. SurveyUSA opinion research is conducted using a methodology optimized for each particular project. In some cases, this means data is collected 100% by telephone, in some cases, 100% online, and in other cases a blend of the two. For those projects that are conducted "mixed-mode" (or "multi-mode"): Respondents who have a home (landline) telephone are interviewed by phones, sometimes using live interviewers, other times using the recorded voice of a professional announcer. The youngest nade is requested on approximately 70% of calls. This method of the two. For those projects, that greated from SI of Shelton CT. For surveys using voter-list (RBS) sample to call landline phones, sample is purchased from SI of Shelton CT. For surveys using voter-list (RBS) sample to call and means, for other projects, that SurveyUSA displays the questions visually on the respondents welphone, and meters for other device, which means, for some projects, that SurveyUSA indicates the percentage of respondents who use a home phone and the percentage who do not use a home telephone is purchased from SSI, responses are minimally weighted to the known demographics of the voter file, which include gender and age but, typically, not race. Target (cell) weighting is used. On questionnaires that ask about political party identification, SurveyUSA may or may not weight represendents. Each engine, and neal elease date.
