**Coming Out of RNC and DNC Conventions, Trump Leads Clinton in Georgia, Though Way Too Close For GOP's Comfort; Incumbent Republican Isakson 9 Atop Challenger Barksdale; Democrats Unlikely to Pick Up This US Senate Seat in 2016:**

Donald Trump is expected to carry the Red State of Georgia, and 14 weeks till votes are counted, Trump leads --- but not by as much as Republicans hope, according to a SurveyUSA poll conducted for WXIA-TV, the Tegna station in Atlanta. Incumbent U.S. Senate Republican Johnny Isakson runs stronger than Trump at this hour.

In the fiercely fought contest for President, it's Republican Trump 46%, Democrat Hillary Clinton 42%, Libertarian Gary Johnson 5%, and Green Party candidate Jill Stein 2%. Trump leads Clinton by more than 2:1 among whites and by almost 2:1 among seniors. Clinton leads by 66 points among African American voters, who, in today's portrait of the GA electorate, comprise 29% of likely voters. If black turnout in November is higher than 29% in Georgia, Clinton will outperform these numbers. Trump leads by 9 points among men. Clinton leads by only 2 points among women (just an 11-point Gender Gap), the small size of the Gap largely driven by the fact that Clinton trails among rural women by 31 points.

Trump and Clinton tie 44% each in suburban Georgia: Trump leads by 12 points among suburban men; Clinton leads by 11 points among suburban women. Trump leads in military households by 16 points, in evangelical households by 27 points. Among Georgia Democrats, Trump gets 1% of the vote. Among Georgia Republicans, Clinton gets 6%. Moderates break for Clinton by 12 points. Independents break for Trump by 12 points.

- \* Among Trump supporters, 60% say they are voting "for Trump," 38% say they are voting "against Clinton."
- \* Among Trump supporters, 69% say they vote for Trump enthusiastically. 29% say they vote for Trump with reservations.
- \* Among Trump supporters, 79% say race relations in the past 8 years have gotten worse; just 5% say relations have gotten better.

- \* Among Clinton supporters, 68% say they are voting "for Clinton," 26% say they are voting "against Trump."
- \* Among Clinton supporters, 69% say they vote for Clinton enthusiastically. 28% say they vote for Clinton with reservations.

- \* Among Johnson supporters, 66% are voting "for Johnson," 17% are voting "against Trump," 17% are voting "against Clinton."

- \* Trump is viewed unfavorably by 52% of likely voters (40% "extremely unfavorable," 12% unfavorable).
- \* Trump is viewed favorably by 45% of likely voters (21% "extremely favorable," 24% favorable).
- \* Clinton is viewed unfavorably by 57% of likely voters (46% "extremely unfavorable," 11% unfavorable).
- \* Clinton is viewed favorably by 40% of likely voters (20% "extremely favorable," 20% favorable).
- \* By contrast, President Barack Obama is viewed unfavorably by 50% of likely voters (38% "extremely unfavorable," 12% unfavorable).
- \* Obama is viewed favorably by 48% (31% "extremely favorable," 17% favorable).

Trump voters say undocumented immigrants should be deported by a 12:1 margin; Clinton voters say they should be allowed to stay by a 5:2 margin. Voters who say the economy is the most important issue in 2016 back Clinton by 17 points. Voters who say terrorism is the most important issue in 2016 back Trump by 24 points.

4% of registered GA voters tell SurveyUSA that they "always" vote in Presidential elections, but are sitting out 2016 because they don't like the candidates. Another 7% of Georgia registered voters tell SurveyUSA they rarely vote in Presidential elections, but will vote this year because they are especially attracted to one of the candidates. These "new" voters split; they do not disproportionately favor Trump.

In the election for **United States Senator** from Georgia, Incumbent Republican Isakson defeats Democratic challenger Jim Barksdale 48% to 39% today, with Libertarian Allen Buckley at 5% and 8% of likely voters undecided. Of Trump supporters, just 2% crossover in the Senate contest and vote Democratic. Of Clinton supporters, just 6% crossover in the Senate contest and vote Republican. Isakson leads 3:1 among whites, 3:1 among rural men, nearly 3:1 in Northwest GA and 5:3 in Southern and Coastal GA. Barksdale leads by 25 points among young voters, by 54 points among African American voters, and by 86% among Democrats (including, leading 96% to zero percent among "strong Democrats"). Independents break 5:3 for Isakson, moderates break for Isakson by 4 points. Barksdale leads by 9 points among lower-income voters, but Isakson leads by 6 points among middle-income voters and by 22 points among affluent voters. Barksdale leads by 26 points in Greater Atlanta, which includes Fulton and 3 surrounding counties. Barksdale carries suburban women by 7 points. Isakson carries suburban men by 23 points --- a 30-point Gender Gap in the suburbs.

**Respondent Filtering / Historical Context:** SurveyUSA interviewed 800 state of GA adults 07/29/16 through 07/31/16. All interviews were conducted after the conclusion of the Democratic National Convention. Of the adults interviewed, 711 were registered to vote in Georgia. Of the registered voters, 628 were determined by SurveyUSA to be likely to vote in the 11/08/16 general election. This research was conducted using blended sample, mixed mode. Respondents reachable on a home telephone (65% of registered voters) were interviewed on their home telephone in the recorded voice of a professional announcer. Respondents not reachable on a home telephone (35% of registered voters) were shown a questionnaire on the screen of their smartphone, tablet or other electronic device. Georgia last voted for a Democrat for President in 1992, when Bill Clinton captured the state's then 13 electoral votes by 1 percentage point over George H. W. Bush. In 2012, Mitt Romney carried Georgia by 8 points. In 2008, John McCain carried Georgia by 7 points. George W. Bush carried Georgia by 17 points in 2004 and by 12 points in 2000. The last time Georgia voted for a 3rd-party candidate was 1968, when George Wallace defeated Richard Nixon by 12 points and defeated Hubert Humphrey by 16 points.

**Statement of Methodology:** SurveyUSA is an independent, non-partisan, apolitical research company that conducts opinion surveys for media, academic institutions, commercial clients, non-profits, governments, agencies and elected officials. SurveyUSA opinion research is conducted using a methodology optimized for each particular project. In some cases, this means data is collected 100% by telephone, in some cases, 100% online, and in other cases a blend of the two. For those projects that are conducted “mixed-mode” (or “multi-mode”): Respondents who have a home (landline) telephone are interviewed by phone, sometimes using live interviewers, other times using the recorded voice of a professional announcer. The youngest male is requested on approximately 30% of calls to home phones, the youngest adult is requested on approximately 70% of calls. This method of intra-household selection reduces the potential for age and gender imbalance in the unweighted sample. Re-attempts are made to busy signals, no-answers and answering machines. For surveys using random-digit-dial (RDD) to call landline phones, sample is purchased from SSI of Shelton CT. For surveys using voter-list (RBS) sample to call landline phones, sample is purchased from Aristotle of Washington DC. Respondents who do not use a home telephone are interviewed on an electronic device, which means, for some projects, that call-center employees hand-dial cell phones and interview respondents verbally on the respondent’s cell phone, and means, for other projects, that SurveyUSA displays the questions visually on the respondent’s phone, tablet, or other device. Sample for respondents who do not use a home telephone is purchased from SSI, from Aristotle, or from one of several other research companies that provide access to cell respondents. Where meaningful, SurveyUSA indicates the percentage of respondents who use a home phone and the percentage who do not, and crosstabs by this distinction. If sample of adults is drawn from SSI, responses are minimally weighted to U.S. Census targets for gender, age and race. If sample of voters is drawn from Aristotle, responses are minimally weighted to the known demographics of the voter file, which include gender and age but, typically, not race. Target (cell) weighting is used. On questionnaires that ask about political party identification, SurveyUSA may or may not weight to Party ID, depending on client preference. Where necessary, questions and answer choices are rotated to prevent order bias, recency and latency effects. On some studies, certain populations are over-sampled, so that the number of unweighted respondents exceeds the number of weighted respondents. Each individual SurveyUSA release contains the date(s) on which interviews are conducted and a release date. If interviewing for a particular study is conducted in Spanish, or in any other foreign language, it will be noted on the specific release. If no notation appears, interviews are conducted in English. Where respondents are filtered, such as adults, filtered to registered voters, in turn filtered to likely voters, SurveyUSA describes the filtering on the specific release. On pre-election polls in geographies with early voting, SurveyUSA differentiates between respondents who have already voted and those who are likely to vote but have not yet done so. SurveyUSA assigns to each question within the instrument a theoretical margin of sampling error, but such error is useful only in theory. Though commonly cited in the presentation of research results, “sampling error” is only one of many types of error that may influence the outcome of an opinion research study. More practical concerns include the way in which questions are worded and ordered, the inability to contact some, the refusal of others to be interviewed, and the difficulty of translating each questionnaire into all possible languages and dialects. Non-sampling errors cannot be quantified. This statement conforms to the principals of disclosure as recommended by the National Council on Public Polls (NCPP). Questions about SurveyUSA research can be addressed to [editor@surveyusa.com](mailto:editor@surveyusa.com).
