GA Super Tuesday Look-Ahead: GOP Trump Today 7 Pts Atop Carson; Dem Clinton Buries Sanders; 16 Electoral Votes Stay Red At This Hour: 4 months till Super Tuesday, 3 key findings emerge from this latest SurveyUSA poll conducted exclusively for WXIA-TV in Atlanta: * Donald Trump leads Ben Carson 35% to 28% in the contest to be the Republican nominee for President for 2016.
* Hillary Clinton leads Bernie Sanders 73% to 16% in the contest to be the Democratic nominee for President in 2016.
* If those two candidates are in fact the major-party nominees, Trump defeats Clinton in a general election today, 46% to 37%. Other findings: * Georgia splits on whether the Confederate Battle Flag should be taken down over public property.
* Georgia opposes holding elections online.
* Georgia supports holding elections on a weekend.
* Georgia supports the death penalty. In the contest for the Republican nomination, Marco Rubio runs 3rd, with 12% of the vote; all others are in single digits. Trump leads by a nominal 2 points among conservative voters, and leads by 11 points among moderate voters. Trump leads by 20 points among the least educated voters. Carson and Trump are effectively tied among the most educated Republican Primary voters. Trump leads by 20 points among the least affluent voters; Carson leads among the most affluent Republican Primary voters. Sanders is not today competitive in Georgia; Clinton captures the Democratic Party nomination by more than 4:1. Filtering: 2,075 adults from the state of Georgia were interviewed 10/15/15 through 10/26/15. Of the adults, 1,787 were registered to vote in the state of Georgia. Of those registered to vote, SurveyUSA determined that 629 would be likely to vote in the 03/01/16 Republican primary and 481 would be likely to vote in the 03/01/16 Democratic primary; 1,554 would be likely to vote in the November 2016 general election. This research was conducted using blended sample, mixed mode. Respondents reachable on a home telephone (68% of registered voters) were interviewed on their home telephone in the recorded voice of a professional announcer. Respondents not reachable on a home telephone (32% of registered voters) were shown a questionnaire on their smartphone, tablet or other electronic device.

1 If the Republican primary for President were today, and you were filling out your ballot now, which Republican would you vote for? Donald Trump? Ben Carson? Carly Fiorina? Marco Rubio? Jeb Bush? Ted Cruz? John Kasich? Mike Huckabee? Or Some other Republican?

** Too few respondents of this type were interviewed for this data to be meaningful.

Statement of Methodology: About the Poll: This poll was conducted by telephone in the voice of a professional announcer. Respondent households were selected at random, using Random Digit Dialed (RDD) sample provided by Survey Sampling, of Fairfield CT. All respondents heard the questions asked identically. The pollster's report includes the geography that was surveyed; the date(s) interviews were conducted, the number of respondents who answered each question and the theoretical margin of sampling error for each question. Where necessary, respondents were weighted using the most recent US Census estimates for age, gender, ethnic origin and region, to align the sample to the population. In theory, one can say with 95% certainty that the results would not vary by more than the stated margin of sampling error, in one direction or the other, had the entire universe of respondents with home telephones been interviewed with complete accuracy. There are other possible sources of error in all surveys that may be more serious than sampling error. These include: the difficulty of interviewing respondents who do not have a home telephone; the refusal by some with home telephones to be interviewed; the order in which questions are asked; the wording of questions; the way and extent to which data are weighted; and the manner in which specialized populations, such as likely voters, are determined. It is difficult to quantify the errors that may result from these and other factors. Research methodology, questionnaire design and fieldwork for this survey were completed by SurveyUSA of Clifton, NJ. This statement conforms to the principles of disclosure of the National Council on Public Polls.
