

Results of SurveyUSA Election Poll #14507

Geography: Pennsylvania  
Data Collected: 10/05/2008 - 10/06/2008  
Release Date: 10/07/2008  
Percentaages

**Pennsylvania Whites Switch Horses, and Suddenly Obama is 15 Furlongs Ahead:** In an election for President of the United States in Pennsylvania today, 10/07/08, four weeks to the vote, Democrat Barack Obama defeats Republican John McCain 55% to 40%, according to a SurveyUSA tracking poll conducted exclusively for WCAU-TV Philadelphia, KDKA-TV Pittsburgh, WNEP-TV Scranton, WHTM-TV Harrisburg, and WJAC-TV Johnstown. Compared to an identical SurveyUSA poll released twelve days ago, Obama is up 5 points; McCain is down 4. Among white voters, who make-up 87% of PA's electorate, Obama had trailed by 3, now leads by 4 -- a 7-point swing to the Democrat, which, when combined with Obama's now 24:1 advantage among black voters, puts Obama in prime position to capture the 21 Keystone Electoral Votes as the two candidates head for home. Obama today leads among PA men and women, young and old, rich and poor, more educated and less educated. McCain leads among Republicans, conservatives, pro-life voters, and gun owners. 21% of Republicans cross over to vote for Obama; 16% of Democrats cross over to vote for McCain. Independents break 2:1 for Obama. Obama leads 2:1 in the Philadelphia area, leads by 10 points in the Scranton area, and nominally in the Pittsburgh area. McCain leads by double digits in Harrisburg and ties Obama in Johnstown.

**Filtering:** SurveyUSA interviewed 900 Pennsylvania adults 10/5/08 and 10/6/08. Of the adults, 809 were registered to vote. Of the registered voters, 653 were determined by SurveyUSA to be likely to vote in the 11/04/08 general election. Pennsylvania has 21 Electoral College votes. John Kerry carried the state by 2&frac12; points in 2004; Al Gore carried the state by 4 points in 2000.

\*\* Too few respondents of this type were interviewed for this data to be meaningful.

: KDKA-TV Pittsburgh, WCAU-TV Philadelphia, WHTM-TV Harrisburg, WJAC-TV Johnstown-Altoona, WNEP-TV Wilkes-Barre/Scranton

**Statement of Methodology:** About the Poll: This poll was conducted by telephone in the voice of a professional announcer. Respondent households were selected at random, using Random Digit Dialed (RDD) sample provided by Survey Sampling, of Fairfield CT. All respondents heard the questions asked identically. The pollster's report includes the geography that was surveyed; the date(s) interviews were conducted, the number of respondents who answered each question and the theoretical margin of sampling error for each question. Where necessary, respondents were weighted using the most recent US Census estimates for age, gender, ethnic origin and region, to align the sample to the population. In theory, one can say with 95% certainty that the results would not vary by more than the stated margin of sampling error, in one direction or the other, had the entire universe of respondents with home telephones been interviewed with complete accuracy. There are other possible sources of error in all surveys that may be more serious than sampling error. These include: the difficulty of interviewing respondents who do not have a home telephone; the refusal by some with home telephones to be interviewed; the order in which questions are asked; the wording of questions; the way and extent to which data are weighted; and the manner in which specialized populations, such as likely voters, are determined. It is difficult to quantify the errors that may result from these and other factors. Research methodology, questionnaire design and fieldwork for this survey were completed by SurveyUSA of Clifton, NJ. This statement conforms to the principles of disclosure of the National Council on Public Polls.
