Percentages

CA: GOP Whitman Narrowly Atop Brown For Governor; Fiorina & Boxer In Tight Fight for US Senate. In an election for **Governor** of California today, 07/12/10, Republican Meg Whitman edges Democrat Jerry Brown 46% to 39%, according to a SurveyUSA poll conducted exclusively for KABC-TV Los Angeles, KPIX-TV San Francisco, KGTV-TV San Diego, and KFSN-TV Fresno. Brown, currently California's Attorney General, leads 2:1 in the Bay Area, trails in the rest of the state. Whitman, former CEO of eBay, leads among men and affluent voters. The Republican holds 77% of Republican voters. The Democrat holds 64% of Democrats. Independents break 5:4 Republican. Question 1 and 2 on this report show the identical data. Question 1 collapses 9 minor party candidates and "undecided" voters into a single "other / undecided" category. Respondents were asked the "who will you vote for" for Governor question once. In the race for **United States Senate**, Democratic incumbent Barbara Boxer and Republican Carly Fiorina are effectively even. Fiorina 47%, Boxer 45%, within the survey's theoretical margin of sampling error. Twice as many Democrats cross-over to vote Republican as Republicans who cross-over to vote Democrat. The Republican has an ever-so-slight advantage in Greater Los Angeles and in the Central Valley. The Republican carries the Inland Empire 2:1. The Democrat carries the Bay Area 2:1. Question 3 and 4 on this report show the identical data. Question 3 collapses 6 minor party candidates and "undecided" voters into a single "other / undecided" category. Respondents were asked the "who will you vote for" for US Senate question once. **Proposition 19, which would legalize marijuana**, and allow marijuana to be regulated and taxed in California, is supported narrowly today. Ballot measures are difficult to poll; opposition to many ballot measures increases as election day approaches. Voter reaction to Proposition 19 can be expected to shift as both sides begin to advertise the pros and cons of passage. Today: The youngest voters support. The oldest voters oppose. Democrats and Independents support. Republicans oppose.

Filtering: 1,000 California adults were interviewed by SurveyUSA 07/08/10 through 07/11/10. Of them, 840 were registered to vote. Of the registered voters, 614 were determined by SurveyUSA to be likely to vote in the 11/02/10 general election, 4 months from now.

1 [Candidate names rotated]-
If the election for California Governor were today, who would you vote for? Republican Meg Whitman? Democrat Jerry Brown? Or another candidate?

Statement of Methodology: About the Poll: This poll was conducted by telephone in the voice of a professional announcer. Respondent households were selected at random, using Random Digit Dialed (RDD) sample provided by Survey Sampling, of Fairfield CT. All respondents heard the questions asked identically. The pollster's report includes the geography that was surveyed; the date(s) interviews were conducted, the number of respondents who answered each question and the theoretical margin of sampling error for each question. Where necessary, respondents were weighted using the most recent US Census estimates for age, gender, ethnic origin and region, to align the sample to the population. In theory, one can say with 95% certainty that the results would not vary by more than the stated margin of sampling error, in one direction or the other, had the entire universe of respondents with home telephones been interviewed with complete accuracy. There are other possible sources of error in all surveys that may be more serious than sampling error. These include: the difficulty of interviewing respondents who do not have a home telephone; the refusal by some with home telephones to be interviewed; the order in which questions are asked; the wording of questions; the way and extent to which data are weighted; and the manner in which specialized populations, such as likely voters, are determined. It is difficult to quantify the errors that may result from these and other factors. Research methodology, questionnaire design and fieldwork for this survey were completed by SurveyUSA of Clifton, NJ. This statement conforms to the principles of disclosure of the National Council on Public Polls.
