With Presidential Finish Line in Sight, Early California Voters Limit Impact of FBI Investigation on Clinton Lead; Harris Safely Atop Sanchez in Fight for Boxer's Seat; Prop 64 Likely to Pass, Legalizing Recreational Marijuana:

In California, 7 days till votes are counted, Democrat Hillary Clinton leads Republican Donald Trump by 29 points among early voters but leads by just 17 points among voters who have not yet returned a ballot, according to SurveyUSA's final pre-election tracking poll conducted for KABC-TV in Los Angeles, KPIX-TV San Francisco, KGTV-TV San Diego, and KFSN-TV Fresno. This is an indication of what the fallout may be from the FBI's newly announced interest in Anthony Weiner's computer.

In 3 previous tracking polls, Clinton in California had led by 25 points, 26 points and 26 points; today, by 21. Two weeks ago, Clinton had led by 25 points among independent voters, now by just 9. The political seas are choppy; unclear how much water the Clinton ship will take-on in more competitive states.

In an election today for United States Senator from CA, to replace retiring Democrat Barbara Boxer, Democrat Kamala Harris defeats Democrat Loretta Sanchez, 47% to 27%. Harris's 20-point advantage is effectively unchanged from her 21-point advantage 2 weeks ago.

Ballot Measures:

- * Proposition 56, which would increase the tax on cigarettes to \$2 per pack, is favored to pass 60% to 33%.
- * Proposition 62, which would end the death penalty in CA and replace it with life in prison, trails by 11 points today, 39% in favor, 50% against.
- * Proposition 63, which outlaws large-capacity magazines and requires background checks on ammo purchases, leads 2:1 and will pass.
- * Proposition 64, which would legalize, regulate, and tax recreational marijuana, is backed 54% to 39%, and now appears positioned to become law.

Statewide Favorability Ratings:

- * President Barack Obama is viewed extremely favorably by 38% of CA voters, extremely unfavorably by 26%.
- * Trump is viewed extremely favorably by 12% of CA voters, extremely unfavorably by 52%.
- * Clinton is viewed extremely favorably by 22% of CA voters, extremely unfavorably by 33%.
- * Governor Jerry Brown is viewed extremely favorably by 15% of CA voters, extremely unfavorably by 20%.
- * Dianne Feinstein is viewed extremely favorably by 17% of CA voters, extremely unfavorably by 20%.
- * Boxer is viewed extremely favorably by 17% of CA voters, extremely unfavorably by 23%.

Context and Methodology:

SurveyUSA interviewed 900 state of California adults 10/28/16 through 10/31/16. All interviews were completed after FBI director James Comey announced 10/28/16 new interest in emails on a previously unknown electronic device. Of the adults interviewed, 816 were registered to vote. Of the registered, 747 were judged by SurveyUSA to have already voted in the Presidential election or as certain to do so before polls close on 11/08/16. Of registered voters, 2% tell SurveyUSA they almost always vote in a Presidential election but will not vote in 2016 because they do not like any of the candidates. 5% of voters tell SurveyUSA they almost never vote in Presidential elections but will vote in 2016 because they are particularly drawn to one of the candidates. The survey was conducted using blended sample, mixed mode. Respondents reachable on their home telephones (56% of likely voters) were interviewed on their home telephones in the recorded voice of a professional announcer. Respondents not reachable on a home telephone (44% of likely voters) were shown a questionnaire on the screen of their smartphone, tablet or other electronic device.

13 Proposition 63 is known as the Firearms and Ammunition Sales Initiative. A YES vote would require persons who want to buy ammunition to pass a background check with the California Department of Justice. And Proposition 63 would make it against the law to possess large-capacity ammunition containers, known as magazines. Will you vote YES on 63, to require background checks on ammo purchases and to make large-capacity magazines illegal? Or will you vote NO on 63, which would leave the existing system in place?

14 Currently, medical marijuana is legal in California, but recreational marijuana is not. Proposition 64 would legalize and tax the recreational use of marijuana. Will you vote YES on Proposition 64, which would legalize the recreational use of marijuana by adults age 21 and older, and which would license, regulate and tax the marijuana industry? Or, will you vote NO on 64, which would keep state laws as they now are?

** Too few respondents of this type were interviewed for this data to be meaningful.

Results of SurveyUSA Election Poll #23322

Geography: California

Data Collected: 10/28/2016 - 10/31/2016

Release Date: 11/01/2016

Percentages

: KABC-TV Los Angeles, KFSN-TV Fresno, KGTV-TV San Diego, KPIX-TV San Francisco

Statement of Methodology: SurveyUSA is an independent, non-partisan, apolitical research company that conducts opinion surveys for media, academic institutions, commercial clients, non-profits, governments, agencies and elected officials. SurveyUSA opinion research is conducted using a methodology optimized for each particular project. In some cases, this means data is collected 100% by telephone, in some cases, 100% online, and in other cases a blend of the two. For those projects that are conducted "mixed-mode" (or "multi-mode"): Respondents who have a home (landline) telephone are interviewed by phone, sometimes using live interviewers, other times using the recorded voice of a professional announcer. The youngest male is requested on approximately 30% of calls to home phones, the youngest adult is requested on approximately 70% of calls. This method of intra-household selection reduces the potential for age and gender imbalance in the unweighted sample. Re-attempts are made to busy signals, no-answers and answering machines. For surveys using random-digit-dial (RDD) to call landline phones, sample is purchased from SSI of Shelton CT. For surveys using voter-list (RBS) sample to call landline phones, sample is purchased from Aristotle of Washington DC. Respondents who do not use a home telephone are interviewed on an electronic device, which means, for some projects, that call-center employees hand-dial cell phones and interview respondents verbally on the respondent's cell phone, and means, for other projects, that SurveyUSA displays the questions visually on the respondent's phone, tablet, or other device. Sample for respondents who do not use a home telephone is purchased from SSI, from Aristotle, or from one of several other research companies that provide access to cell respondents. Where meaningful, SurveyUSA indicates the percentage of respondents who use a home phone and the percentage who do not, and crosstabs by this distinction. If sample of adults is drawn from SSI, responses are minimally weighted to U.S. Census targets for gender, age and race. If sample of voters is drawn from Aristotle, responses are minimally weighted to the known demographics of the voter file, which include gender and age but, typically, not race. Target (cell) weighting is used. On questionnaires that ask about political party identification, SurveyUSA may or may not weight to Party ID, depending on client preference. Where necessary, questions and answer choices are rotated to prevent order bias, recency and latency effects. On some studies, certain populations are over-sampled, so that the number of unweighted respondents exceeds the number of weighted respondents. Each individual SurveyUSA release contains the date(s) on which interviews are conducted and a release date. If interviewing for a particular study is conducted in Spanish, or in any other foreign language, it will be noted on the specific release. If no notation appears, interviews are conducted in English. Where respondents are filtered, such as adults, filtered to registered voters, in turn filtered to likely voters, SurveyUSA describes the filtering on the specific release. On pre-election polls in geographies with early voting, SurveyUSA differentiates between respondents who have already voted and those who are likely to vote but have not yet done so. SurveyUSA assigns to each question within the instrument a theoretical margin of sampling error, but such error is useful only in theory. Though commonly cited in the presentation of research results, "sampling error" is only one of many types of error that may influence the outcome of an opinion research study. More practical concerns include the way in which questions are worded and ordered, the inability to contact some, the refusal of others to be interviewed, and the difficulty of translating each questionnaire into all possible languages and dialects. Non-sampling errors cannot be quantified. This statement conforms to the principals of disclosure as recommended by the National Council on Public Polls (NCPP). Questions about SurveyUSA research can be addressed to editor@surveyusa.com.
